

DRY CABINETS

Vacuum Desiccators

0030, Non-auto type desiccator has a pan for silica gel and is convenient

Non-auto type has a pan for silica gel and is convenient. Also use in applications other than dehumidification.

Shelf plates can be adjusted in 15 steps at 28mm intervals to match the size of the stored items.

Slim vertical type design does not take up space.

The inside humidity is slightly different depending on the set room temperature and usage conditions.

- Body cabinet:PVC; Frame:ABS.
